Students

I don't have a lot that I thought needed to be improved. Maybe trying different teaching techniques to help students broaden their understanding.

Is there additional information or feedback that you would like to share with instructor Andres Perez ?

Students

I liked how the discussions included relevant information and expanded further on the lecture topics. I thought that the assignments and grading were fair and reasonable. Overall thought that it was one of the better discussion sections I have had at USC.

goated , wish problem sets were shorter and we were provided with formula booklet. Overall, love the discussion section for this class

I really enjoyed this class and the best thing for me was how you graded. Focusing on our understanding of the material compared to getting the exact right answer helped me a lot throughout the semester.

Excellent instructor.

You are a GEM and are the only reason we all know what we are doing in this class aka you are the only one that actually teaches us!!!!!! Otherwise we all are collectively so confused and have no idea what things mean or how to prepare for the exams. Thank you!!

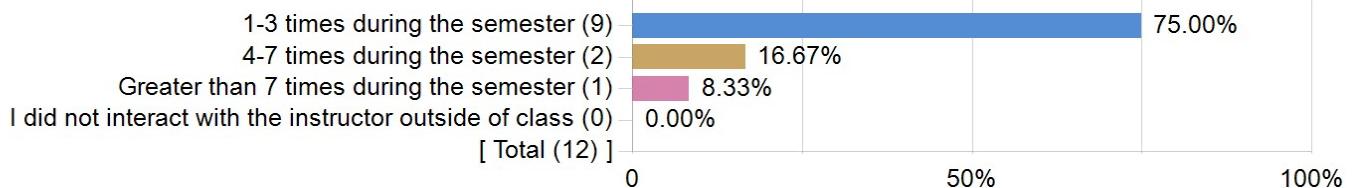

Great Prof Keep it up Orale!

Professor Perez is amazing! He is very passionate about what he teaches and that makes the world of a different. His classes are engaging because he is able to make even boring concepts sound fun. I learned a lot from him and I hope he knows that.

Please describe the MOST valuable aspect(s) of this course.

Comment
Most valuable aspect of the course was the homework assignments which prepped me well for the exams and were graded with lots of feedback in order to help me improve.
How accurate the problem sets were with the lecture content and the midterm.
Professor Perez will take the time to answer any questions you have no matter how long it takes. He really cares and does want you to do well. I often found that his discussion session made the real difference in my learning the concepts.
TA and professor's charisma and understanding with all students.
Interactions and explanations where I had time to ask questions after lecture
None for me
The discussion sessions were the most valuable since we went in-depth in smaller groups about the subjects being taught
We are able to learn a lot of theory/concepts in a digestible way
The course helped me learn about how policies have a wider range of effects on the overall economy, and consider and research more things and affects more thoroughly

Please describe the LEAST valuable aspect(s) of this course.

Comment
Least Valuable aspect of the course was the uploaded slides. Very incomplete which i'm guessing is a motivator to come to class but even with context from class slides were difficult to understand when revisiting for study purposes.
How much lecturing compared to participation (assignments).
N/A
Classroom was very large, difficult to interact: student to professor.
going over the problem set
Its annoying
